## BATMAN, THE CAPED CRUSADER™

This is an 'arcade adventure' game with action overtones. The game consists of two 'plots' revolving around Batman's deadliest enemies — The Penguin and The Joker. Each plot is played in a similar fashion — though the various locations and problems encountered will vary. The stories so far:

### THE PENGUIN PLOT — "A BIRD IN THE HAND"

The Penguin, having been released from jail, decides to set up an umbrella production factory, near his Gotham City mansion, but, of course old habits die hard and this is but a cover for his ingenious plan to take over the world using an army of robotic penguins! As 'Batman' can you close down the hidden master control computer and stop this evil conspiracy?

### THE JOKER PLOT — "A FETE WORSE THAN DEATH"

Robin has mysteriously disappeared — the only clue found is a single 'playing card' the sign of the infamous 'Joker'!! Batman's arch enemy has returned. On close examination the Batcomputer reveals a secret message hidden on the flip side of the card: "Robin heads for a fate worse than death: the fuse is lit — so don't waste time, follow your nose and remember, there's no place like home! Boom! Boom! Can you uncover the mystery, save Robin and defeat the Joker? Time is running out

### GAMEPLAY

The presentation on screen simulates a comic strip with Gotham City and all its characters appearing in 'multiple overlaid panels'. Batman's energy status bars and the 'plot completion percentage' are also displayed on this screen. Game percentage, Objects carried, Control icons, Bat-cursor, Energy Status bars.

### EXAMPLE — UTILISING AN OBJECT
